NITIN VISHWAKARMA

Aspiring Web Developer

📞 +91 8433870820 @ vishwakarmanitin7263@gmail.com 📍 Mumbai, India

NV

SUMMARY

I am an aspiring Web Developer with a Bachelor of Science in IT. My expertise lies in full-stack development, particularly with technologies like HTML, CSS, JavaScript, Angular, and Python. I excel in problem-solving and teamwork, and I am enthusiastic about contributing to innovative web projects. I am eager to leverage my skills in a dynamic organization, focusing on creating impactful digital solutions

Bachelor of Science (B.Sc)
Thakur College of Science & Commerce
📅 08/2022 - 06/2025 📍 Mumbai

Senior Secondary (XII)
Shri TP Bhatia College of Science
📅 06/2020 - 06/2022 📍 Maharashtra State Board

Secondary (X)
Pal Rajendra English High School
📅 06/2018 - 06/2020 📍 Maharashtra State Board

LANGUAGES

German
Intermediate ●●○○○

TRAINING / COURSES

Indian Institute of Remote Sensing Outreach Program

German Language Course

KEY ACHIEVEMENTS

⚡ **AI Healthcare Chatbot**
Developed an AI Healthcare Chatbot that enhances access to healthcare guidance and improves early disease detection

💡 **CryptoPrice Dashboard**
Created a real-time dashboard for Crypto and Stock information which utilizes live data to provide users with up-to-date information

SKILLS

Bootstrap C/C++ CSS Git

HTML JavaScript TypeScript

Angular

PROJECTS

AI Healthcare Chatbot
📅 05/2024 - 04/2025

AI Healthcare Chatbot project focused on providing medical guidance through AI

- Developed a 24/7 AI-based chatbot for healthcare queries, symptom analysis, and medical guidance
- Implemented front-end and back-end functionalities, user interfaces, and managed database operations
- Impacted by improving access to healthcare guidance, reducing professional workload, and enhancing early disease detection

CryptoPrice - Real-Time Crypto & Stock Dashboard

CryptoPrice project for tracking real-time crypto & stock data

- Built a live dashboard using LiveCryptoAPI and IndiaStockAPI to display crypto prices, top stocks, mutual funds, and IPOs
- Used RxJS Observables for real-time updates and async data handling
- Developed responsive UI with Angular components and Node.js backend for API integration

INTERESTS

❤️ **Outreach Program Participation**

Participated in the outreach program to gain insights into remote sensing technologies and their applications
